OutdoorIndustryJobs.com – Helping the Outdoor Industry and the Job Seeker Connect

Woodland, CA, 5/12/2006 — OutdoorIndustryJobs.com, is an employment network web site for the Outdoor, Bicycle and Winter Sport Industries where job seekers and employers may connect to fill positions available in the industry

OutdoorIndustryJobs.com, launched in December of 2005, is filling a much-needed service for companies who manufacture and distribute products or provide services that support the outdoor product industry. The site also serves as a gathering place for independent sales reps to find available lines and companies to locate sales reps to represent their products.

The site includes sophisticated searches and posting features for both job seekers and employers. Job seekers may search and apply instantly, receive job matches via email and post their resumes. Employers can post their jobs and candidate profiles, opt to search and automatically receive resumes of available candidates.

The service is free for job seekers to post their availability and to apply for jobs. Employers can do a limited search for free, but are charged for posting and resume searches.

Laurel King, founder and owner said, "I am excited that this is a service that the industry can really use. There was no service that helped to connect a person who has experience with and passion for the outdoors to companies who provide goods and services for the outdoor enthusiast. We are growing fast and have a significant database of job seekers and companies who have posted their information".

Tim Warren with Adventure Business Consultants said, "Just visited your new site. Well done! A great resource the job seeker and employer should benefit from. We just filled our office co-manager position. And I will definitely keep you in mind for other needs sure to come along."
